Yoga Class Descriptions

Beginner's mat Pilates: is a low-impact, full-body workout performed on a mat using body weight for resistance, focusing on controlled movements to build core strength, improve flexibility, and enhance body awareness. It teaches fundamental principles of Pilates like [breathing](#), [control](#), and [centering](#), making it an accessible starting point for people of all fitness levels to develop a strong foundation for better posture, balance, and coordination

Gentle Vinyasa Flow Yoga: Gentle Vinyasa is a type of yoga that combines the flowing movements of Vinyasa Yoga with a slower and an easier pace when compared to a typical Vinyasa Flow class. It's a good option for beginners, or those interested in a step above Gentle Yoga. Transitions from sitting to standing poses will be taught on a mat at beginning/ intermediate level. Participants can expect a flowing pace that is meditative and emphasizes peace and calm.

Slow Flow Yoga : Join us for tis ultimate relaxation yoga experience! Class will work through 5 basic poses very gently accompanied with mindfulness practices ! Expect all matt work with no standing positions or transitions. . * Personal blankets and pillows are encouraged*

Somatic Yoga : Somatic yoga's focus on gentle, mindful movements can help to increase joint mobility, muscle flexibility, and overall physical strength.

Wednesday/Thursday : Wednesday morning Yoga @ 8am is devoted to gentle style poses with easy transitions all work will be done on the floor using Yoga Mats😊 Thursday morning routines will be more vigorous implementing Vinyassa Flow sequences accompanied with deep breathing exercises.

Yoga Stretch: This is a perfect way to unwind with gentle stretches for the entire body accompanied with basic Yoga poses to enhance flexibility!

Yoga “Chair” Gentle yoga poses from a chair position. Great opportunity for those who want to avoid having to get down on the floor.

Yogalates: This Class focuses on basic Pilates principles & Yoga techniques that strengthen core muscles, increase flexibility, improve breath control and correct alignment to improve posture. Simple choreography and clear instruction makes this class accessible to both beginners that haven't exercised in years or people who exercise regularly.

Yin Yoga : It targets the deepest tissues of the body, our connective tissues – ligaments, joints, bones, the deep fascia networks of the body and the meridians. This is contrast to a Yang yoga practice such as Vinyasa yoga which targets the muscles.
